## **DETAILED ACTION**

### ***Priority***

1. Applicant's claim for priority based upon the international application filed in Finland and designating the United States of America is granted as the requirements set forth in 37 CFR §1.495 have been met.

### ***Drawings***

2. The drawings were received on 10 October 2006. These drawings are acceptable.

### ***Specification***

3. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

4. The abstract of the disclosure filed 10 October 2006 is objected to because it includes legal phraseology. Correction is required. See MPEP § 608.01(b).

Art Unit: 3671

5. The prior objections to the Specification for omitted section headings have been overcome by the response filed 10 October 2006.

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 9 through 34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claim 9, the scope of the claimed invention is indefinite because it is unclear whether the “brake disk system” is the same as the “brake system.” Applicant is advised to use consistent claim language throughout the claims if the terms are intended to limit the same feature of the claimed invention. For the purpose of prosecution on the merits, the Examiner has considered the terms interchangeable; i.e., they refer to the same feature of the claimed invention. Claim 22 is similarly rejected and interpreted.

With regard to claims 23 through 28 and 32 through 34, the scope of the claimed invention is indefinite because the apparatus claims are dependent upon a claim.

***Allowable Subject Matter***

8. Claims 9 through 34 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3671

9. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

***Conclusion***

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
